Hi Robert,

We have reviewed your February 26, 2013 request to amend your Cricket Mountain Quarry permit (M/027/0006) to construct a haul road from the Big Sage area to the Poison Mountain processing area. The Division has received your revised reclamation surety, and SITLA's concurrence for cultural resources clearance.

You are now approved to construct and use the haul road from the Big Sage quarry area to the Poison Mountain area, as identified in your February 26th amendment request. You should receive the Division's signed approval letter with stamped copies of the approved pages with a week or so. Let me or Paul know if you have any questions. Thanks.

Peter
